Profile summary

I'm a versatile professional with in-depth knowledge and great skills primarily in front end web development, UI/UX design and graphic design. My great proficiency level in HTML, CSS, SASS, JavaScript, Git, Adobe Creative Suite (Adobe Illustrator, Adobe Photoshop, Adobe InDesign and Adobe XD) enable me to perform and deliver efficiently and effectively in all of the above mentioned fields due to my flexibility and experience hence making me a top notch front end developer as well as a graphic designer. With all these qualities, I create data driven solutions that elevate human experiences.
